

Oios Metals

Green Products

Our products are 100% American made and the most Durable you will ever own and all made as a “Sustainable Design” from 98% recycled metal.

- 1. Products that become discolored, scratched or damaged can be repaired and refinished to new condition many times over.**
- 2. All of our items that are damaged beyond repair can be recycled into 100% reusable metal.**
- 3. We use mostly secondary (Once already used) recycled boxing for our packaged products.**
- 4. We always try to consolidate orders for shipping to lower fuel usage.**
- 5. All scrap packaging materials and metal from production is recycled back to our suppliers.**
- 6. We only use secondary pallets that are recycled back for shipping.**

We are 100% American made start to finish!

Oios Metals would like you to join us to always take steps towards making green design decisions in our lives and homes.

As we grow we are always researching new options for a more sustainable production facility; Solar panels, Wind turbines and more ways to reclaim waste.

**Thank you,
Oios Metals**
